Additional Features

Vendor to identify additional features not listed above and include pricing.

Sevocity is an all-inclusive EHR that's easy to use, robust and affordable. We currently interface with over 30 PM systems, and we'll write other HL-7 interfaces to PM companies if needed at no charge. Additionally, we partner with a couple of PM systems that are all Internet-based, like Sevocity, that are easy to use and affordable and who do not charge for the interface with Sevocity.

All information obtained from the vendor.
